

Discover How Professional Learning Can Unlock the Science of Reading

Learning A-Z® Solutions are designed to support Science of Reading-aligned instruction, but to make the greatest impact on their students, teachers need support too. That's why Learning A-Z offers flexible, effective professional learning that helps educators implement our solutions to engage students and improve outcomes.

Choose From a Variety of Flexible Options

Virtual Professional Learning: From getting started to deeper dives into product resources, focus on instructional best practices for incorporating Learning A-Z into your curriculum.

Onsite Professional Learning and Curriculum Services: Deepen and connect your implementation of Learning A-Z solutions to achieve your instructional goals.

Lesson Modeling and Coaching Support: Help teachers maximize their Learning A-Z resources through modeling and reflection on best practices.

Customized Workshops: Participate in a full day of engaging and collaborative learning tailored to develop a deeper knowledge of your Learning A-Z instructional resources.

Train-the-Trainer: Codesign a professional learning program to build capacity and provide turnkey training and support for your teachers.

Resource Mapping: Let our team identify and help strategically integrate Learning A-Z resources into your district's curriculum.

The Professional Learning Services team works alongside your instructional leaders to make sure you get off to a strong start and maintain momentum with your Learning A-Z products.

Contact your Sales Executive or Professional Learning Manager to discuss how we support educators and help them reach their instructional goals. Or visit [LearningA-Z.com/PD](https://www.learninga-z.com/PD).

Onsite Professional Learning and Curriculum Services

Learning A-Z offers Onsite Professional Learning and Curriculum Services that deliver targeted solutions to address unique district and school needs, including best practices for implementing Science of Reading-aligned instruction. We collaborate with instructional leadership to create a customized program that enables teachers to make the greatest impact on student learning.

Onsite Professional Learning

Customized Workshops

Customized Workshops are ideal for customers who are using multiple products or who want to dig deeper into using Learning A-Z resources with Science of Reading-aligned instructional best practices. These workshops are offered as full-day sessions, multi-day sessions, or as shorter breakouts over the course of one day. Facilitated by a Learning A-Z Professional Learning Expert, they are delivered at your location in an engaging, interactive collaborative format.

- Workshops provide interactive, hands-on professional learning.
- Meaningful collaboration engages teachers in applying best practice instruction with Learning A-Z resources.
- Content can be customized to support your instructional approach, supplement your core, and target your strategic goals.
- Multiple formats provide flexibility to fit your unique needs and schedule.

\$3,000 per day, \$2,500 each consecutive day

Train-the-Trainer Package

Customized professional learning for a cohort of instructional leaders to build capacity and provide turnkey training and support for educators.

- Codesign a professional learning plan to help achieve specific goals and objectives.
- Participate in planning, check-ins, data reviews, and related support to optimize professional learning efforts.
- Develop expertise in Learning A-Z resources and strategies for successful teacher training.
- Receive supporting resources to use in turnkey sessions, including a presentation, agenda, support materials, and more.

***3 onsite and 5 live virtual consultations throughout the year
• \$9,500 limited to 30 participants***

Lesson Modeling & Coaching Support

Help teachers maximize their Learning A-Z resources. Consult with a Professional Learning Expert to determine best practices for modeling of Learning A-Z resources.

- Identify relevant resources to inform modeling and best practices.
- Observe modeled lesson with grade-level colleagues.
- Debrief with Learning A-Z expert and colleagues to review strategies and plan next steps.

\$3,000 per day, \$2,500 each consecutive day

Curriculum Services

Resource Mapping

Our team of academic and curriculum experts identify and strategically integrate Learning A-Z resources into district curriculum. We create a personalized solution that best fits district curricular goals, so teachers can focus on driving positive student outcomes.

- Partner with experts to build a customized plan to fit your unique curriculum.
- Save time by having our team map the best resources that align with your instructional framework, standards, and learning outcomes.
- Promote strategic and meaningful use of Learning A-Z resources.

Starting at \$5,000 per grade level • Project price depends on project guidelines
