

Complement Your Core Program With Raz-Plus

The Perfect Complement to HMH Into Reading

As you and your students embark on your reading journey, you may notice that supplementation for your core curriculum is necessary. Raz-Plus provides a variety of tools to complement your core program to enrich your students' reading experience.

Support Throughout Your Reading Journey	Provides high-quality lessons, resources, and activities that support reading development for K-5 students during each grade as they progress.	Offers grade-level specific solutions. As students progress, a new solution must be purchased.
Differentiation of Instruction	Allows for differentiation of instruction by way of student and classroom-level reporting that allows you to monitor student learning.	Offers a fully integrated online platform that allows teachers to plan, teach, assess, and differentiate instruction through an add-on product.
Research-Based Content	Provides research-based resources and lesson plans to amplify the impact of instruction.	Includes research-based instruction.
Vocabulary Support	Lessons include integrated vocabulary and guides to support instruction.	Only includes whole group lessons.
Skills Reinforcement	Offers Comprehension Skill Packs, Argumentation Skill Packs, and Literature Circle Journals to enhance literacy skills.	
Student Practice	Acts as the perfect complement for Into Reading by providing a wide variety of practice opportunities for small groups, learning centers, and independent practice.	Does not offer adequate practice time, per Ed Reports.
Flexibility	Allows teachers to assign developmentally appropriate practice materials in multiple formats no matter where students are learning.	Does not take into account the need for flex days, per Ed Reports.
Flexible Resource Selection Tools	Allows teachers to filter resource choices by grade, topic, Lexile, or F&P level to meet each student's unique needs.	

Student Engagement	<p>Comes with a space-themed student portal that allows students to earn stars to customize personal avatars and encourages accelerated development using Level Up!, a program that encourages students to progress to the next reading level.</p>	<p>Game-based practice activities keep students motivated by including friendly avatars, missions, environments, and badges.</p>
Tools for Reading Comprehension	<p>Keeps students engaged through ebook tools including, but not limited to, audio and annotation.</p>	<p>Provides projectable tools, but has a limited selection of tools to annotate the text.</p>
Selection of Content	<p>Raz-Plus Reading Room encourages students to become lifelong readers by providing access to a variety of high-interest content that caters to both student interests and needs while rewarding them for leveling up.</p>	
Core Curriculum	<p>Offers a Literacy Curriculum Map to help teachers identify gaps in their core curriculum to supplement materials while allowing them to teach core standards in a more in-depth way.</p>	<p>Provides a grade-level ELA standards-aligned curriculum.</p>
Correlations	<p>Includes correlations for Into Reading embedded into the product.</p>	
Independent Reading Practice	<p>Provides a vast library of thousands of engaging resources that can be easily assigned for flexible digital and mobile access.</p>	<p>Supports balanced literacy by offering a curated library of leveled books accompanied by an 8-page lesson, but only when an add-on is purchased.</p>
Diversity & Inclusion	<p>Reinforces diversity & inclusion and Social-Emotional Learning instruction through Meaningful Conversations, a comprehensive resource that offers cohesive modules about a variety of topics such as bullying through videos, texts, and visual devices.</p>	
Spanish Literacy Support	<p>Raz-Plus Español, an add-on to meet dual language students' needs, includes Spanish texts, including authentic Spanish books, songs and rhymes, Close Reading Packs, serial books, Summer School Theme Packs, and Spanish graphic organizers.</p>	<p>Supports multilingual learners with daily dedicated English language development lessons through an add-on product.</p>
